

New Business Locating in Fairview!

I want to once again thank Governor Kay Ivey and ADECA (Alabama Department of Economic and Community Affairs) Director Kenneth Boswell for approving state funding for a project in my Senate District!

\$289,000 approved funding (ARC & CDBG) and \$58,160 in regional and local funding will construct sewer infrastructure for the town of Fairview, which means Jack's and other future businesses can now locate at Fairview.

It is amazing how much sales taxes this business will generate for state and local public funds.

This is a great example of all levels of public entities working together to make a project a reality — federal, state, regional, county commission, county industrial development authority, Alabama Mountain and Rivers R.C. and D. Council, NARCOG and of course the town. And the School System played a major role.

And, I want to take this opportunity to thank Governor Ivey and ALDOT Director John Cooper for the state funding \$234,950 that paid for the recently completed resurfacing of Wesley Avenue North in Fairview.

I am proud to be a part of this success story and I will continue to work hard to bring Montgomery funding home to my district for infrastructure and other needed public projects.

I appreciate the kind words from Mayor Keith Henry!

“This project (Jack’s) would not be happening without the support of Senator Garlan Gudger. He was there to help us every time we ran into a stumbling block on the project and we really appreciate his help.” Keith Henry, Mayor of Fairview.
