

Sometimes, the causes that matter most are right in your own backyard- that back yard being District 12.

Today, I joined Representative Tim Wadsworth in delivering a \$15,000 sponsorship check to Garrison Gives Hope.

These funds will go toward Emergency Relief Trailers that the Cullman County EMA will use during natural disasters and life-threatening emergencies throughout Cullman County and the surrounding areas.

With this support, the original goal of purchasing and outfitting one county-wide trailer has now been met — and there are even funds left over to begin outfitting a second.

I'm proud to play a part in helping meet this critical need for our EMA system. The more our community grows, the more important it is that our emergency response keeps pace.

This effort is made possible by the hard work and partnership of Cullman County VOAD, Garrison Gives Hope, and R.E. Garrison Trucking.
