

Senate District 4 Tour & Friday Night Lights!

It's always enjoyable touring our Senate district to visit with people we represent.

Friday afternoon we visited with our friends from Addie's Place as they had their event in Double Springs to bring awareness to mental health. They do great work!

We had a chance earlier in the afternoon to visit the Addison Airport with our friend Representative Tim Wadsworth and area officials to celebrate the airport's new chapter as they transition from the town of Addison operations to Boone Creek Aviation Foundation.

Our friends from Wallace State Community College Flight School flew in to join us in the celebration.

This type of airport is important not only for the area for economic development but it also serves as an important training facility for the military, college aviation classes and provides passenger travel.

Then we made our way to "Friday Night Lights" in Hackleburg where we saw a lot of people from our district at their high school football game with both Addison and Hackleburg going into the game undefeated!

Our friend Tony Shackelford invited us to join him for a halftime discussion on his radio program! It was a great opportunity to update the area on legislative matters and talk a little football!

I am honored to have Marion and Winston counties in our Senate district along with Cullman County.
