

Wallace State Opens in Winston County!

A new Wallace State facility is now available in Arley, Alabama to serve the people of Winston County!

I am very proud to work closely with Representative Tim Wadsworth (R-Arley), Dr. Vicki Karolewics and her team at Wallace State, and Chancellor Jimmy Baker and his team in Montgomery to make this new opportunity a reality!

This is another example of how we can address the needs of rural Alabama and small-town Alabama.

Not too long ago, Wallace State opened up in Blount County (Oneonta) and the student demand there proved the need for a new campus in Oneonta. I expect the same will happen in Arley.

I enjoyed being a part of the ribbon-cutting at this new facility in Arley! I enjoyed being a part of the ribbon-cutting at this new facility in Arley!

I will continue to work hard to bring state resources and infrastructure improvements to my Senate district, which includes Cullman, Winston and Marion counties.
