

I enjoyed breakfast with the Gold Fire Department Saturday morning!

I had the opportunity to deliver some checks to the Gold Ridge Fire Department and Community Center Saturday morning for their latest project.

These men and women volunteer their time to help their neighbors as they respond to medical and fire emergencies!

Their work also reduces property insurance in their area.

They are currently undertaking a project to pave their parking lot, and I want to help.

Their facilities are already well maintained, but this project will improve the community center and fire department, make it a better polling place and it will be safer for the senior population walking to the building or their community storm shelter.

It was a wonderful Saturday morning in Gold Ridge for me, and there's not a breakfast in Montgomery like I had Saturday! Delicious!
